GENERAL INFORMATION

The purpose of this supplement is to indicate the recent changes made in the courses of studies, expenses, scholarships, etc. These changes are not numerous. In all particulars, except those mentioned in this supplement, the program of the College will remain the same in 1939-40 as it was in 1938-39.

In case a department is not mentioned, the courses remain in that case the same as they were last year. Only the courses added this year are given a place in this publication. Due attention should be given to the change made in the Foreign Language requirement for graduation, and the new rules governing the awarding of scholarships. Some changes may be noted also in the personnel of the Board of Trustees and committees.

SCHOLARSHIPS, LOANS & AWARDS

Scholarships

In recognition of high scholastic standing and a true ambition to attain a college education the Alumni and friends of the college have provided a number of scholarships. The average value of a scholarship is $60.00 annually, one-half of which is to be applied each semester toward the payment of tuition and fees. It is the custom of the college to make these awards in accordance with the desire of the donors when there is an expression in this particular.

Schoolarships are awarded for one school year only. A candidate for one of these awards should not have any deficiencies standing against his record. Any student who fails to maintain a passing average during the first semester is liable to lose the benefit of his scholarship for the rest of the year. It is expected that the holder of a scholarship carry a study program of at least fifteen hours for credit.

Applications should be made to the Dean of the College, on forms furnished from his office. The applications should be filed not later than September 1.

Through the generosity of certain organizations a few other scholarships are available. These helps are based on scholastic rating and character. Students interested should see the Dean or the President
